

AIRBANDS

WIRELESS BFR CUFFS

Next generation BFR training

AirBands (patent pending) are the world's first wireless, automated training cuffs.

AirBands leverages the benefits of blood flow restriction (BFR), a safe and effective method to reduce the time and intensity required to build muscle and increase strength.

As the world's first Bluetooth-controlled, wireless BFR cuffs, AirBands can help accelerate training results, manage loads and streamline rehabilitation.

Train smarter, get stronger

When combined with evidence-led training programs, AirBands provide a multitude of ground-breaking physiological benefits, including:

- Increased muscular adaptations.
- Advances in aerobic capacity.
- Rehabilitation support.

HARDWARE

No cords, no complications

The AirBands cuff

AirBands cuff features a velcro loop system, for superior comfort and durability. Built from sweat-resistant fabric cloth, lined over a custom-built, medical-grade air bladder.

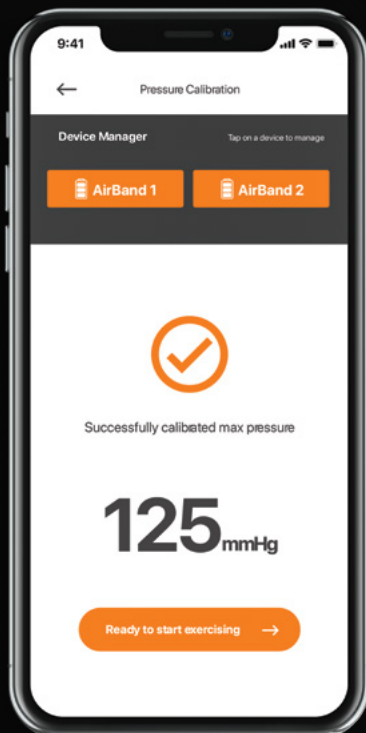

Arm cuff: 25cm – 45cm / 10" – 18". Leg cuff: 45cm – 65cm / 18"–26".

The AirBands module

AirBands feature a rechargeable battery, sensor, valve, pneumatic pump air bladder and a Bluetooth module that connects to your smart device.

SOFTWARE

Take the guesswork out of calibration

The AirBands app

- Wireless pairing.
- Automatic inflation/deflation.
- Individualised pressure calibration.

 **iOS Devices**
Available from the App Store

 **Android Devices**
Available on Google Play
